

## Hot Melt: Fugitive Bond

Heigl Technologies would like to introduce our **HAS-HM8536** hot melt. The HAS-HM8536 is a unique all-in-one fugitive bond hot melt specifically formulated for applications where a minor adherence to substrates is required. Fiber tear is minimal to non-existent in most applications.

This is an excellent product for palletizing. This product also displays excellent cold resistance. Dust & moisture reduce the usefulness and shelf life of **HAS-HM8536**.

### **HAS-HM8536 Technical Data**

<b>Application:</b>	<b>Fugitive Bond Hot Melt Adhesive</b>
<b>Viscosity:</b>	<b>9,000 cps @ 300° F, 5500 cps @ 325° F, 2,500 cps @350° F &amp; 1000 cps @ 375° F</b>
<b>Softening Point:</b>	<b>180° F</b>
<b>Solids:</b>	<b>100%</b>
<b>Form:</b>	<b>Co-Extruded or Drums</b>
<b>Color:</b>	<b>6-8 (ASTM-D1544-68) Yellow</b>
